High powered 14.4 MJ/h wok burner	Cast iron trivets	Flat Trivets	Simple and durable control panel graphics
Easy under knob ignition	Flame Failure Device	LP Gas Conversion kit included LP Gas Conversion kit included. Must be installed by a licenced tradesperson.	

BENEFITS

Lock in flavours with high heat
The key to capturing flavours in your favourite stir fry is high heat. With a 14.4 MJ/h wok burner you are able to create dishes the whole family will love.

Family safety first
Our cast iron trivets flat design ensure the base of your pots and pans are fully supported, allowing you to have a safer and more stable cooking environment.

Simple and durable control panel graphics
Understanding the cooktop should be easy. Thats why our graphics are clear and durable, so they are always there to help you understand how to get the most out of your new cooktop and understand exactly what goes where.

Easy to Clean
Spend more time cooking and less time cleaning. Our flat surface gives foods and spills nowhere to hide, making cleaning a breeze.

Flame out. Gas off.
In the kitchen, it should always be safety first. If the cooktop flame unexpectedly goes out, our Flame Failure Device will automatically shut down the gas supply so you and your family can breathe easy.

Specifications
