

Bottom Mount Refrigerator

WBB3402WL-X

Minimum Recommended Airspaces

If you have a cupboard above the refrigerator, recommended minimum clearance at the top of the refrigerator increases to 90mm. Allow a minimum of 10mm clearance above the hinge cover.

Please note: Doors are designed to sit proud of cabinetry (not flush).

When positioned in a corner area, spacing of at least 350mm on the hinge side will allow the doors to open enough to enable the removal of bins and shelves.
